Experience

08/2021 to 10/2022

Back-end:-***Bridge Africa Ventures***

Worked in Bridge Africa ventures as a backend engineer, on a project whose purpose is to provide business visibility online as well as giving the various businesses, users, and they community they all form to communicate and have the possibility to market their products and users able to purchase. For this project in the backend API call I made used of LARAVEL.
